

Foodliner[®]
Mexico S.R.L.C.V.

FOODLINER MÉXICO

INTERNATIONAL TRANSPORTATION SOLUTIONS AND LOGISTICS

Building on a history that began in 1954 with founder Robert L. McCoy and subsequently the McCoy Group.

Foodliner® now ranks among the largest carriers in the bulk-food industry, with revenues totaling over \$100 million.

Our customized transportation system has repeatedly resulted in mutually beneficial partnerships with most of the country's major bulk-food, sugar, sweetener, vegetable-oil and flour-milling companies.

This recognized growth has allowed us to expand our horizons and today the McCoy Group consists of McCoy National Lease, Truck & Country®, Tow Truck Country®, Quest Liner® and Quest Logistics.

OUR VALUES

- Quality is defined as 100% conformance to requirements.
- Our work must remain error-free in all processes.
- Measurement of the price of nonconformance will determine our total quality success.
- Prevention of nonconformance is our overall objective for providing continuous improvement within our industry
- Foodliner® strives to achieve these basic absolutes through the development of partnerships with both our customers and our suppliers

Foodliner México® is the newest addition to the McCoy Group, born in 2012 with the goal to expand our horizon to the international markets and create infrastructure that will allow our customers to import and export their products utilizing our network of terminals throughout North America, while assuring that we will continue to provide the same standards of quality service and leadership in our market.

DRY BULK TRANSPORTATION
